Forensic Science International, 51 (1991) 313–314
Elsevier Scientific Publishers Ireland Ltd.

CONTENTS
Volume 51 (1991)

Semen finger print
by S.H. Doss and N.A. Louca (Cairo, Egypt) 1–12
Neurosurgical vascular complications associated with aneurysm clips evaluated by postmortem angiography
by P.J. Karhunen (Helsinki, Finland) 13–22
The polymerase chain reaction and post-mortem forensic identity testing: application of amplified D1S80 and HLA-DQα loci to the identification of fire victims
by A. Sajantila, M. Ström, B. Budowle, P.J. Karhunen and L. Peltonen (Helsinki, Finland and Quantico, VA) 23–34
Recent status of the medical examiner system in Japan: demographic variation of medicolegal deaths in Hyogo prefecture and uncertainty in medicolegal investigations conducted by medical practitioners
by W. Ajiki, T. Fukunaga, K. Saijoh and K. Sumino (Ohtsu, Japan) 35–50
Simultaneous observation of catecholamine, serotonin and their metabolites in incised skin wounds of guinea pig
Y. Maeno, F. Takabe, Y. Mori, M. Iwasa and H. Inoue (Nagoya, Japan) 51–63
Ofloxacin in human hair determined by high performance liquid chromatography
by N. Miyazawa, T. Uematsu, A. Mizuno, S. Nagashima and M. Nakashima (Hamamatsu, Japan) 65–77
Changing patterns of male suicide in Scotland
by D.J. Pounder (Dundee, U.K.) 79–87
Solid phase extraction method for rapid isolation and clean-up of some synthetic pyrethroid insecticides from human urine and plasma
by L. Junting and F. Chuichang (Shenyang, China) 89–93
Event-related brain potentials as indicators of visual recognition and detection of criminals by their use
by R. Neshige, Y. Kuroda, R. Kakigi, F. Fujiyama, R. Matoba, M. Yarita, H. Lüders and H. Shibasaki (Cleveland, OH; Hukuoka, Saga and Kyoto, Japan) 95–103
Evaluation of a method for simultaneous quantification of codeine, ethylmorphine and morphine in blood
by H. Gjerde, U. Fongen, H. Gundersen and A.S. Christophersen (Oslo, Norway) ... 105–110
In vitro loss of potassium from erythrocytes during the 0–108 h postmortem period in rats: relationship between potassium loss and postmortem interval
by D. Querido (Cape Town, Republic of South Africa) 111–123
Gas chromatographic-mass spectrometric analysis of buflomedil hydrochloride in biological samples after acute intoxication
by N. de Giovanni and N. Fucci (Rome, Italy) 125–129
The analysis of quaternary ammonium compounds in human urine by direct inlet electron impact ionization mass spectrometry
by M. Nisikawa, M. Tatsuno, S. Suzuki and H. Tsuchihashi (Osaka, Japan) 131–138
A new biochemical method for estimation of postmortem time
T.O. Rognum, S. Hauge, S. Øyasaeter and O.D. Saugstad (Oslo, Norway) 139–146

HLA DQα typing of forensic specimens by amplification restriction fragment polymorphism (ARFP) analysis
by C.S. Harrington, V. Dunaiski, K.E. Williams and C. Fowler (Adelaide, Australia) 147–157
Book Review 159–160
Diary of Future Events 161
Localization and quantification of histamine in injured skin as parameters for the timing of wounds 163–171
by F.C. Zhong and Z.J. Zhen (Guangzhou, China)
DNA length polymorphism of the APO B 3′ region: frequency distribution of the alleles in the German population 173–178
by J. Schnee-Griese and J. Teifel-Greding (Stuttgart and München, Germany)
Analysis of benzophenones by gas chromatography/Fourier transform-infrared spectrometry 179–188
by T. Minagawa, S. Suzuki and T. Suzuki (Yamagata and Osaka, Japan)
Postmortem absorption of drugs and ethanol from aspirated vomitus — an experimental model 189–195
by D.J. Pounder and K. Yonemitsu (Dundee, U.K.)
Total anomalous pulmonary venous drainage and sudden death in infancy 197–202
by R.W. Byard and L. Moore (Adelaide, Australia)
Microspectrofluorimetry of fluorescent dyes and brighteners on single textile fibres: Part 1 — fluorescence emission spectra 203–220
by A.W. Hartshorne and D.K. Laing (Reading, U.K.)
Microspectrofluorimetry of fluorescent dyes and brighteners on single textile fibres: Part 2 — colour measurements 221–237
by A.W. Hartshorne and D.K. Laing (Reading, U.K.)
Microspectrofluorimetry of fluorescent dyes and brighteners on single textile fibres: Part 3 — fluorescence decay phenomena 239–250
by A.W. Hartshorne and D.K. Laing (Reading, U.K.)
Breaking of flat glass — Part 1: Size and distribution of particles from plain glass windows 251–262
by J. Locke and J.A. Unikowski (Reading, U.K.)
An absorption standard for microspectrophotometry: results of a collaborative exercise 263–272
by A.W. Hartshorne and D.K. Laing (Reading, U.K.)
Estimating allele frequencies of hypervariable DNA systems 273–280
by V.L. Pascali, E. d'Aloja, M. Dobosz and M. Pescarmona (Rome, Italy)
Preliminary report on a new method of human age estimation from single adult teeth 281–288
by X. Xiaohu, H.P. Philipsen, N.G. Jablonski, B. Weatherhead, K.M. Pang and Z. Jiazhen (Guangzhou, China and Hong Kong, Hong Kong)
Detection of semen and blood stains using polilight as a light source 289–296
by M. Stoilovic (Canberra, Australia)
Microspectrophotometry in the development and photography of fluorescing marks 297–304
by R.H. Hooker, K.E. Creer and J.S. Brennan (London, U.K.)
Diary of Future Events 305
